SHARE PROGRAM LIBRARY SUBMITTAL FORM

SHARE PROGRAM LIBRARY AGENCY
Triangle Universities Computation Center
Post Office Box 12076
Research Triangle Park, North Carolina USA 27709

SPLA

CONTROL NUMBER: SHR00246

This form should be completed and submitted with the program package to the SHARE Program Library Agency at the address shown above. Standards and instructions for submitting programs are in the SHARE Reference Manual, Section 6.

(1) Program Number (to be filled by SPLA) 370D-70.0.002

(2) Title of Program Network 3270ID Retrieval

(3) System Type(s) (Machine). OS/VS environment with VTAM

(4) Search Key(s) VTAM, 3270, NETNAME

(5) Programming Systems/Languages IBM Assembler/Macros

(6) Primary Subject Code 3270 ID's

(7) Minimum System Requirements VTAM OS/VS

(8) New (N) or Revision (R) (if revision, show prior Program Number in Item 1) New

(9) Date of Submittal January 14, 1981

(10) Documentation (number of original pages submitted)

(11) Author's Name and Address John Canine

American Broadcasting Company

433 Hackensack Avenue

Hackensack, N.J. 07601

(12) Direct Technical Inquiries to Name & Address (if different than Author) Bob Curtis
same as above

(13) Submitter's Installation Membership Code ABC

(14) Abstract (should contain sufficient information for a reader to determine the value of the program). Listed on the reverse side of this form are subjects which may serve as a guide for a descriptive abstract.

Triangle Universities Computation Center (TUCO) serves as the central agency for the submission, distribution, and maintenance of programs in the SHARE Program Library. They are distributed to all members of the SHARE Program Library. The TUCO makes any warranty, express or implied, as to the documentation, function, or performance of the contributed programs.

SHARE PROGRAM LIBRARY SUBMITTAL FORM

Subject Guide:

- Purpose
- Programming Language used
- Version and modification level or release number
- Field of application
- Type of routine (main program, subroutine, etc.)
- Specific description of machine requirements

This is a VTAM application program which enables a 3270 operator to sign on and returns the NETNAME to the operator.

This enables verification of the proper network mode in problem determination and equipment installation.

The program is written in Assembly using VTAM and OS macros to run in any OS/VS environment and can easily be modified to run in a DOS environment.

Method of Operation:

The user signs onto the application and the program returns the Network name. On the next input, the program releases the terminal.

Sign on is as follows:

LOGON APPLID (ID)

DISCLAIMER

Triangle Universities Computation Center (TCCC) serves solely as the distribution agent for contributed programs and does not endorse or maintain them. They are distributed exclusively in the original form submitted by the author. Neither TCCC nor SHARE, INC., makes any warranty, expressed or implied, as to the documentation, function, or performance of the contributed programs.

(Please attach additional pages if necessary) Total pages attached _____

An "Acknowledgement of Assistance" statement must be attached to this Submittal Form.

Permission to Publish

"I hereby give the SHARE Program Library Agency permission to reprint, reproduce, and distribute this program"

(15) Signature of Submitter and Date Jan 23, 1981 John Carroll

(15) Signature of Installation Addressee William Blund

TAPE KEY

This volume contains 2 files on a non labeled tape.

FILE 1: Program Source
 DSN=AMS653AØ
 REDFM=FB
 LRECL=80
 BLKSIZE=800

FILE 2: Program Load Module
 DSN=LOD653AØ
 Unloaded module created by IEBCOPY. This is the
 Assembled/link edited version of File 1.

Please note that the module name on the tape does not match the module name in the program. Source files were created by IEBGENER, as a convenience a copy of the creating JCL is being enclosed.
